nutmeg DESIGN

Convert more website browsers into customers through simple, impactful, user-friendly design

Welcome to Nutmeg Design Studio. I'm Meg, a web designer specialising in Shopify, WordPress, conversion optimisation and user experience design.

Work with me and I'll expertly guide you through each step of the website creation process, from planning out your site structure to designing a user-friendly and gorgeous website that elevates your business and converts more browsers into customers so you grow sales.

"Megan is amazing to work with. She did everything I asked of her and more with so much patience and proficiency. She read my intentions with my website perfectly and provided exactly what I had in mind from the gorgeous look of my shop to the mood and feel I wanted to create. Also, there was never a delay in communications even though we are countries and time zones apart."
